In these present times of financial unrest ,it is very necessary for us to maintain our peace of mind by understanding this concept that the Lord will take care and steer the path of the devotee in a way so as to improve the sadhana aspect always.

Yallaranu Salahuvanu edake samshaya vella =every one he protects with his blessing,no doubt about it...wait manave wait have patient..

Bettada tudeyalle hutteda vrushakke katteyanu katte nereredavaru yaru????

Here Dasru asks some Qs to us who has give food and shelter to the plants wch grows at end of hills..?

Even we can see the like mind thought by one of the Purandara dasara hadu:

hiMde ninna salahidavarAru muMde ninna kolluvavarAru

aMdigiMdige gOviMdaniddAne prANi

Dasaru asks everyone to stop and think . He asks ," Who took care of you previously? Who will see that your life on earth comes to an end at the appropriate time?" He asserts that both these conflicting acts for a jiva are controlled entirely by the Lord. What does this previously mean?

It could mean - previous birth or any number of previous births or it could be in this birth when one was in womb of the mother, when one was a helpless baby in need of another person to care for every little need. If one thinks back then one feels the utter wonder worked by the Lord. He induces the feeling of love in the mother and father and makes them care for the baby willingly ,sacrificing many comforts for its well-being. He gives them the happiness of seeing the child grow and motivates them to provide a suitable environment to grow intellectually,physically and spiritually.

The lord one whose gives birth will take care of all jeevas,likehow the mother one she gives the birth to his baby will take care... the same like the lord will look after the all jeeva who gave the birth,again dasaryaru tells there is no doubt about it he will take care talu manave..

We can get the same like mind in Harikathamrutha sara in Karunasandhi,that sabdhi clearly describes the Karune of sri hari,
